

Class Utilities

Discord	Zoom
Blackboard Collaborate	MyMathLab
Pearson	CSCE 145 website
Mastering Biology	Sapling
Discussion Boards	Textbooks
YouTube	WebWork

Notifications

Scheduled	Text style notifications, until a certain time, then if the user doesn't press that they know they have a class the system calls the user
Unique notifications for each different class	How does it work with silenced phones?
Banner Style	Buzzes and dings
Notifies computers also?	Calls cell if an emergency contact is needed
Gives user ability to state how far in advance they want to be notified	Email?

App Design

User friendly	Accessible for people with disabilities
Open source?	Aesthetically pleasing
Free or pay for use?	Only phone? or PC also?
A list of all homework assignments	A list of all classes and times of the classes on a nice calendar schedule
Stores all video lectures on a server ran by the app. One central location for all recorded lectures. User doesn't have to check multiple programs	Confirm notification button
Option to use flashlight notifications on your phone	Has easy to use links to all class utility programs

Communication

Group chats for students	Ability to send and receive videos and pictures
Professors and TA's have moderator permissions in group chats	Private chats with professors and TA's
Has options for text and voice chats	Has a help button that pings people in the same class to see if anyone is available to help
